

Empathy Map

Date: 14 July 2026

Team ID:

Project Name: Emotion Detection and Learning Support Engine

Create an empathy map to understand the primary user of the Emotion Detection and Learning Support Engine. The goal is to identify what the learner says, thinks, does, and feels while studying so that the system can provide personalized emotional support and learning guidance.

SAYS • "I don't understand this topic." • "I feel stressed before exams." • "I wish learning was easier and more personalized."	THINKS • "Am I capable of completing this course?" • "I hope I can improve my performance." • "I need guidance that matches how I feel."
Student (Primary User)College Student / Learner	DOES • Studies using online learning platforms. • Searches for explanations and practice problems. • Revises topics repeatedly before examinations.
FEELS • Confused when concepts are difficult. • Anxious during assignments and exams. • Motivated and confident after understanding a topic.
