

Data Flow Diagram

Date: 14 July 2026 | **Team ID:** | **Project Name:** Emotion Detection and Learning Support Engine

The Data Flow Diagram illustrates how user input flows through the Emotion Detection and Learning Support Engine. It shows the interaction between the user, the application, the AI emotion detection model, the learning guidance module, the emotion log, and the analytics dashboard.

DFD Symbol Table

Symbol	Name	Description
Rectangle	External Entity (Student)	Represents the user interacting with the system by entering their emotions.
Rounded Rectangle	Process	Represents system processes such as text preprocessing, emotion detection, and learning guidance generation.
Parallel Lines	Data Store	Stores emotion prediction logs in a CSV file for future analytics.
Arrow	Data Flow	Represents the movement of information between the user, processes, and data storage.
